RE: Validation of accessibility compliance – SBE Booking Engine

Dear Seda and To Whom It May Concern:
At the request of SABRE GBL Inc. Knowbility reviewed the eleven (11) screens of the SBE Booking Engine application listed below for accessibility according to WCAG 2.0 and Section 508 guidelines and standards. Knowbility experts tested the screens against WCAG and 508 standards on desktop, mobile and tablet applications. In addition, testing was conducted using the screen reader softwares listed below, as were applicable.

Screens Tested

1. Landing
2. Product Results
3. Add-ons (Hotel Services)
4. Guest Information (Checkout)
5. Review
6. Confirmation / Reservation Details
7. Reservation Search
8. Hotels List
9. Sign Up / Profile Details
10. Reservations List
11. Password Reset

Screen Reader software used:

- JAWS
- NVDA
- ChromeVox
- VoiceOver
- TalkBack

Knowbility, Inc. herein validates that, on February 18, 2019 upon re-testing, the web pages(s) cited above are found to be free of accessibility errors/violations and no accessibility barriers are present on those pages on this date. All information contained therein is accessible and available to users using assistive technology.
After this date, without further expert review, Knowbility makes no validation claims, nor offers any expert opinion(s) concerning the accessibility of the web page, template or document(s) mentioned in this statement. And this statement of validation of accessibility does not apply to any subsequent versions, changes, deletions or additions made to the web pages(s).

Kind regards,

Ron Hicks, Business Development Director
